

## **Why there is stopped the work of Natural Gas?**

Thursday, 05 March 2009 20:32

---

The work of Natural Gas is stopped because the channeling of the Gas circulates along the Englis way and Paderne's council decided to stop it due to the fact that this way belongs to Patrimony, and it(he,she) is not due to the head of pork placed in the bridge.

Therefore what is paralyzed is the descent from San Pantaleón up to Ponte do Porco.

What will spend when the work passes for Miño?
