

The II Festival PorKoRock is in march and already we have the cartel for this year. First we want to give them thanks to all the groups that offered to take part in our Festival, since many of them will not be able to take part for the duration of the same one. We wait to possess them for the following year.

This year we will have to 6 groups of rock in our beach with TRASHNOS as head of cartel. If you want to see the complete cartel you have it [here](#) , though the graphical design will change a bit with regard to this one.
